

ST DAMIAN'S RC SCIENCE COLLEGE

Headteacher: Mr S Logue BA (Econ), MA Ed, NPQH

Tel: 0161 330 5974 / website: www.stdamians.co.uk

Lees Road, Ashton-under-Lyne, Lancashire OL6 8BH

St Damian's RC Science College is celebrating yet another year of above average results that demonstrate that our academic standards continue to be high. Pupil outcomes in Maths and English were well above the National Average and these are the basic foundations for future success. Furthermore, the '**class of 2019**' achieved across a range of subjects with notably the Sciences, French, Religious Education and History. Collectively achieving in these demanding academic subjects has meant that St Damian's is the top performing school in Tameside in terms of the Ebacc performance measurement. This performance measure shows our commitment to ensuring that our pupils sit a robust curriculum that ensures that they are prepared for the top Universities in the country. Our vocational subjects, including BTEC Sport, BTEC Construction, BTEC CPLD and CIDA in ICT also excelled in their achievements with many pupils surpassing high targets.

"Success at St Damian's is because we genuinely care for the children. Our results are simply the by product of love and care and our belief that all pupils should achieve their potential. This, alongside wonderful staff, makes St Damian's a great school. We are already ensuring preparations are underway to ensure that next year we will again produce the outstanding results that our pupils deserve. Watch this space August 2020" Mr Logue, Headteacher

OPEN EVENING

30th September 2019 5:30-8pm
Headteacher Talks at 5:45pm & 6:45pm

"I am delighted that once again pupils have performed to the best of their abilities, some of them surprising themselves. This success is only achieved through the hard work of our pupils and the efforts made by our outstanding staff, both teaching and support staff. The support of parents is essential for this good work to continue" Mrs Jones, Chair of Governors
